DETAILED ACTION

REASONS FOR ALLOWANCE

1. Claims 1-4 are allowed.

The following is an examiner's statement of reasons for allowance: The primary reason for the allowance of claims 1-4 is the inclusion of the limitations of a printing apparatus including ink receiving part which receives ink that is discharged from the ink head; receiving part supporting means which supports the ink receiving part on the carriage in a manner enabling it to reciprocate between an ink receiving part below the ink head and a withdrawn position separated from the ink head while maintaining the horizontal posture. It is these limitations found in each of the claims, as they are claimed in the combination, that has not been found, taught or suggested by the prior art of record which makes these claims allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Ikeda (US 2002/0057301) includes a recording head with position detection means for use in adjusting the gap between recording head and recording medium, and means to adjust carriage height. Sakamoto (JP 06-015831) includes a cap for protection of the ink pen, where the cap is supported on the carriage of the ink jet printer and is urged to a capping state when carriage moves to a home position.
